

FD-E

Banknote Counting Machine

- ★ Widest variety, you will always find the right one...
- ★ Unique SIS (Superior Intelligent Spindles. Patent No.: 200920058000.1) ensures 99% count accuracy rate under all air pressure & humidity conditions and prevents air leakage after years of counting
- ★ Built for heavy duty use of non-stop 8 hours count especially in Cash Centers
- ★ Anti-skid circuit board design prevents short circuit in rainy season
- ★ Fits all sizes of banknotes
- ★ Two years warranty

ACCURACY, THE KEY TO STRAPPED BANKNOTE VERIFICATION

FD-E / E2000 is capable of processing both banded and loose notes precisely and accurately

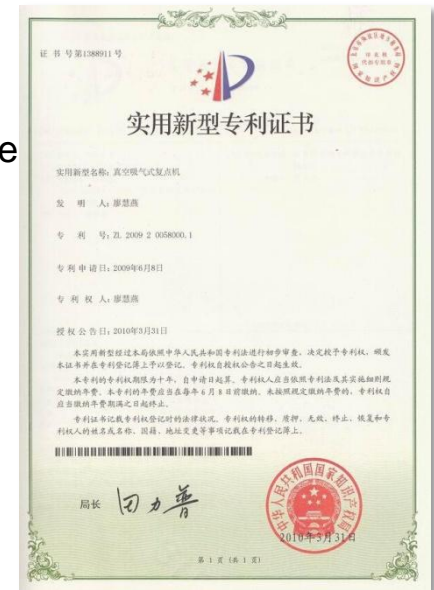

SIS(Superior Intelligent Spindles. Patent No.: 200920058000.1)

*It is designed by National Research Institute.

*spindles are integrated by using metal alloys to make the head and body into one unit. This design made suction spindle more accurate and durable.

*Unique double air channel design in the world, it is called “Y “ shape air channel. One tests the counting air pressure, the other tests atmosphere pressure.

*The 2 air channel spindles that can self adjust itself to avoid any air leak and the lost of vacuum suction. No further adjustment on the air pressure required during its long-term operating life.

Spindles Patent

*Most of the vacuum counters in the market have fixed suction pressure based on normal sea level atmosphere. This will lead to inaccuracy when counting in low atmospheric areas (Highlands). YINKE's advanced 2 air channel spindles design is upgraded from Japanese single channel design for the stable accurate counting every time.

Smart External Display for customer optional
Anti-shutter is optional

***Feature:**

***Standard Function:** CHECK, BATCH, FREE, ADD, RESET,ALARM

***Optional Function:** EXTERNAL DISPLAY, LED DISPLAY PANEL

CHECK: Counting of 100 Notes Batched

BATCH: Counting for Preset Number of Notes from 1-200pcs

FREE: Free Counting

ADD: Accumulating the Total Notes Counted

Low Noise <70Db

External display

Back door key

Model FD-E with anti-shutter

Model	FD-E (7 digits LED display)
Note Size Range	Minimum:90×50mm Maximum:240×100mm
Counting Speed	3.5s/ 100 notes
Holder Capacity	Approx 210 notes
Power Supply	220-240 ± 10% 50 Hz 100-120 ± 10% 60 Hz
Dimension(L*W*H)	355×280×815mm
Net Weight	38kg
